UMDashboards User Manual

General Instructions

Logging Into iDashboards
Click on or copy and paste the following URL in your browser of choice:
https://dashboards.umd.edu/idashboards/sso

Bookmark: add the site as a bookmark or favorite:

a. Chrome (Preferred):
   i. Bookmark icon
   ii. Name the Bookmark and click Done:

b. Internet Explorer:
   i. Bookmark icon:
   ii. Click “Add to favorites”, name bookmark and click “Add”
Enable Flash: You may be required to enable Flash on your browser. Click Enable or Install Flash Plugin.

User Credentials: If you are unable to authenticate using the University CAS system and the below log in screen pops up, enter in your UMD directory ID and password. iDashboards uses single-sign on authentication. Click Login.

*The “Log In automatically” checkbox will remember your user credentials and automatically log into iDashboards when navigating to the above URL.

Assistance Logging In?

Contact David Kenny – dkenny82@umd.edu.

User Settings

iDashboards has several configurable user settings including changing the default color scheme or skin of the application, default language, category sort order, etc. This manual will outline the user settings most commonly used.

Accessing User Settings: The User Settings window can be access by selecting the Menu button located in the bottom left of the iDashboards application:
The User Settings window can also be accessed by clicking the User Settings QuickStart icon located in the bottom right hand corner of the application.
Changing Skin: The iDashboards default skin is “Soft Green”. You can customize the skin or application color scheme within the User Settings by clicking on the dropdown box and selecting your desired color scheme. You must click Save in order to view the new skin color:

Designating a Startup Dashboard: Similar to bookmarking a page on a browser, a user can define a start-up dashboard which will appear upon first logging into iDashboards. The Startup Dashboard can be defined by:

1. Menu → User Settings → Startup Dashboard
   
   Click the Select button to specify your startup dashboard:
2. A navigation similar to Windows Explorer will appear. Choose: **UMD Dashboards → UMD Dashboard Launcher** and click OK.

![UMD Dashboard Launcher](image)

3. Click the Save button at the bottom of the User Settings.
4. Refresh your browser or log out and log back in to verify that your newly defined Startup Dashboard is working.

**User Setting QuickStart Icons:**
Located in the bottom right corner of the application are 6 QuickStart icons which will allow you to quickly access: Reports, Magnify (zoom), Mouse Over Pie Analyzer, User Alerts (not currently used), Refresh and User Settings.

![QuickStart Icons](image)

**Reports Icon:**
- Left-click: new browser window will open with PDF report.
- Right-click: user is provided the option of selecting either an HTML or PDF report output

**Magnify Icon:**
A user can adjust the zoom on the dashboard when click on the Magnify icon. Use the “+” and “-“ to zoom in and out.
Mouse Over Pie Analyzer:
Click on the Mouse Over Pie Analyzer icon to enable the ability to hover a chart and for the X-axis Value hover over, see the Y-axes relative percentages. This functionality is NOT available on all charts as the Y-axis must contain at least one numeric value.

User Alerts:
Currently not being used.
Refresh:
The Refresh icon allows a user to easily refresh the dashboard to update the any newly available data and/or reload the dashboard to remedy chart data errors as show below:

User Settings:
Click on the user settings QuickStart icon to access the user settings window with one click.
Opening Dashboards
There are several ways to open dashboards including designating a startup dashboard, utilizing the bookmark feature, using the recently opened feature or simply navigating to the category which contains the dashboard.

Opening a Dashboard
1. If you designated a dashboard launcher as your startup dashboard, you can simply click on a dashboard image to launch a dashboard:

2. Navigate to a category, i.e. AGNR: Department Dashboards, click on the category name or down arrow and select a dashboard which you would like to view:

Overview of Available UMDashboards
The UMDashboards were developed by a collaborative team comprised of college, department and administrative resources. Each dashboard tells a different story aimed at identifying opportunities, facilitating productive conversations and assisting in planning.

1. Standardized reporting from multiple data sources within one user interface.
2. Aggregated and detail level financial information with a click of a mouse.
3. Timely and accurate reporting tools to facilitate planning and decision-making.
4. Engaged end users via intuitive, visually appealing data visualizations.
The dashboards are comprised of multiple campus datasources including: KFS, PHR, BPM and Kuali Research (KR).

**UMDashboard Launcher**

The UMDashboard Launcher Dashboard contains category links to five different sets of dashboards:

1. **Financial** – a suite of financial dashboards to aid in the oversight and management of department finances and position management.
2. **Research** – a suite of research related dashboards displaying sponsored research metrics.

**Financial Dashboards**

A suite of financial dashboards to aid in the oversight and management of department finances and position management. The suite of financial dashboards can be accessed by click on the “Financial” button located on the UMD Dashboard Launcher under the UMD Dashboards category.

**UMD KFS Balance Dashboard:**

**Overview & Purpose:**

This dashboard visualizes a department's Non-Restricted and Restricted Fund Balance and Budget Balance Available. Click on a subfund group to display the account balances in the tabular chart below. You can drill into a specific account to view the Revenue, Expense and Fund Balance figures. Expanding the Revenue, Expenses and Fund Balance figures will reveal the Object Level and Object Code.
The fringe pool filter allows users with division level access to filter the dashboard to view only the fringe pool accounts (Y), all accounts (Y,N) or all other accounts (N).

The purpose of this dashboard is to allow division, department and subdepartment business managers to:

1. Understand the financial state of the selected unit(s).
2. Identify funding sources including current year budget balance available and projected fund balance. **Projected Fund Balance** = Current Fund Balance – Encumbrances.
3. In collaboration with unit leadership, design financial plans to support strategic objectives and day-to-day operations.

**Available Filters:**
1. Period: previous end of year (EOY) and current, active FY fiscal period.
2. Division
3. Department
4. Sub Department
5. Fringe Pool Filter

UMD Personnel Dashboard:

Overview & Purpose:
Replacing the UMD Faculty & Staff dashboard, this dashboard displays all employees’ PHR salaries, related budget and KFS salary expense & encumbrances. The purpose of this dashboard is to provide a tool to units to easily identify employee funding resources and manage position vacancies for personnel management and utilization. Users can sort by account or by primary name and drill into an employee’s details to see all funding accounts/sources across the University.

Available Filters:
1. Division
2. Department
3. Subdepartment
4. Subfund
5. Budgeted Position?

**UMD Research Expenditures**

![Research Expenditures Chart]

**Overview & Purpose:**
This dashboard visualizes the department/subdepartment research expenditures by fiscal years 2018-2020 **administered by the department** by position type, category status and PI. Users can filter the bar chart by position type by clicking on any slice of the pie chart to the left of the bar chart titled “….Research Expenditures by Position Type”. The “…Research Expenditures by PI” tabular chart can be sorted by any of the column names. Clicking on an investigator drills the investigator’s research expenditures by sponsors and selected fiscal year. Users can expand the tabular chart to reveal the award title, account number and the breakdown of the research expenditures.

The purpose of this dashboard is to allow division, department and subdepartment business managers to:
1. Identify the selected fiscal year’s research expenditures administered by the unit by position type, category status, investigator and investigator award details including title, account number and indirect vs. direct expenses.

Available Filters:
1. Fiscal Year
2. Division
3. Department
4. Sub Department

Overview of Charts:

UMCPF Project Available Balance Dashboard:
Overview & Purpose:
The UMCPF Project Available Dashboard features endowment and operating available balances by department, project, fiscal year and fiscal month.

**Please note that this dashboard requires users to request access.**

The UMD Award $$$’s by Agency & Sponsor dashboard features the division and or department award totals and trend by fiscal year. Users can pivot the treemap chart by selecting clicking on a conical slice in the above cone chart. Selecting a treemap project box will drill the adjacent tabular chart with Revenue, Expense, Transfer and Available Balance totals by project within the selected fiscal year/period.

- **Available Balance Calculation:**
  - Operating: Running balance net of project expense, revenue and transfers
  - Endowment: Budget – Current FY expenses

Available Filters:
6. Division
7. Department
8. Fiscal Year
9. Fiscal Month

Overview of Charts:

<table>

UMD Fringe Budget vs Actuals:

Overview & Purpose:
The UMD Fringe Budget vs Actuals dashboard visualizes fringe budgets by Division, Department, Sub-Department and account vs. the fringe rate expenses and outstanding fringe encumbrances. Users can select a Division, Department or Sub-Department. The top tabular chart with the account listing and thermometer to the left will refresh upon the selected filter inputs. Users can scroll over the account listing and the stoplight will interact with the account’s projected balance. Green light=projected surplus and Red light=projected deficit. Click on an account will drill the bottom tabular chart to visualize the account’s fringe rate category totals. Selecting on a fringe rate category will drill to the object code totals within the fringe rate category.

- Encumbrance Calculation: Outstanding salary & wage encumbrance X applicable fringe rate category %

Available Filters:
1. Division
2. Department
3. Subdepartment

Overview of Charts:

<table>

</tbody>
</table>
UMD Fringe Bud vs Act CBO View:

Overview & Purpose:
The UMD Fringe Bud vs Act CBO View dashboard visualizes projected fringe variances by the fringe rate category and by unit within the selected division. This dashboard is accessible to all UMDashboards users with financial dashboard access but its primary audience is intended for the College Budget Officers (CBOs).

At the top left of the dashboard above the column chart titled “Fringe Budget vs Projected Fringes by Category” is the total projected fringe variance for the division. Running your mouse cursor over the top left column chart will prompt the stoplight to the right to change column:

- **Green** = Projected Fringe Balance Variance SURPLUS
- **Red** = Projected Fringe Balance Variance DEFICIT

The Projected Fringes by Department bar chart visualizes the projected surplus or shortfall of the divisional department’s fringes. Click on any department’s bar will filter the three tabular charts at the bottom of the dashboard.

The bottom three tabular charts allow users to view the breakdown of the fringe category totals as well as the most current pay period FTE and prior FY, ending pay period FTE to compare and contrast if a department’s FTE has increased or decreased over the previous year. Users will also see a list of the selected department’s state support accounts that are impacted by the fringe rate. Users can drill into any account to reveal the object code level details comprising the account totals.
- Encumbrance Calculation: Outstanding salary & wage encumbrance X applicable fringe rate category %

Available Filters:
1. Division

Overview of Charts:

<table>
<thead>
<tr>

Research Dashboards

The Research dashboards have been developed to assist the University community in reviewing sponsored research related trends by fiscal year, sponsor type and agency. The suite of research dashboards can be accessed by click on the “Research” button located on the UMDashboards Launcher.
Overview & Purpose:
The UMD Funding: Proposals, Awards, Expenditures dashboard visualizes a division and/or departments proposal, awards and expenditure YTD totals by period in comparison to the 3-year trailing average.

The purpose of this dashboard is to aid in the review and analysis of the current, fiscal year’s proposals, awards and expenditures performance vs. the 3-year trailing average. If the purple, “Period Totals” trendline rises above the blue, “Avg Prev 3FY (Metric Type)” trendline for the current or previous fiscal periods than the selected division and/or units are exceeding the 3-year trailing average; vice-a-versa if the purple trendline falls below the blue trendline.

Available Filters:
1. Division
2. Department

Overview of Charts:

<td>Displays the current fiscal period aggregate award totals “Period Totals” by fiscal period. “Avg Prev 3FY Prpls” by fiscal period.</td>
<td>Matching period to Funding Totals to on the right</td>
</tr>
</tbody>
</table>
**Kuali Research Expenditures (Line Chart)**

Displays the current fiscal period aggregate expenditure totals “Period Totals” by fiscal period vs. the average previous three fiscal year expenditure totals “Avg Prev 3FY Prpls” by fiscal period.

**UMD Award $$’s by Agency & Sponsor:**

**Overview & Purpose:**
The UMD Award $$’s by Agency & Sponsor dashboard features the division and or department award totals and trend by fiscal year. Users can drill into a fiscal year to plot a treemap of the fiscal year totals by agency. Click on any of the agency boxes will fire a bar chart of the sponsors comprising the agency totals. Click on any sponsor bar and to drilldown into a tabular chart listing the investigator splits and awards comprising the sponsor totals.

**Available Filters:**
10. Division
11. Department
12. Subdepartment
13. Award Type

UMD PI Research Metrics:

Overview & Purpose:
The UMD PI Research metrics visualizes the total proposals, awards and expenditures for the following investigators by their tenure home (if Tenured or Tenure Track) or by the employee’s primary unit. The totals reflected are the applicable credit splits at the investigator level rolled up to the investigator’s tenure home or primary unit.

The purpose of this dashboard is to gain insight into an investigator’s productivity across campus in the selected fiscal year(s). Users can click on a faculty or staff name on the tabular char to visualize the investigator’s proposal, award and expenditure fiscal year trends.

Available Filters:
1. Fiscal Year
2. Division

N/A

UMD Awards by PI:

Overview & Purpose:
The UMD Awards by PI displays the total awards for the following investigators by their tenure home (if Tenured or Tenure Track) or by the employee’s primary unit.

The purpose of this dashboard is to gain insight into an investigator’s productivity across campus in each fiscal year.

Available Filters:
1. Division
2. Tenure Home/Primary Unit

Overview of Charts:

<table>

</table>
UMD Credit Split Analysis:

Overview & Purpose:
The purpose of the UMD Credit Split Analysis dashboard is to investigate and visualize collaborated research on awards by allowing users to select parent awards administered in their units and identify all investigators with credit splits on the award. Users can filter the dashboard by project start date, fiscal year, department and subdepartment. The top, tabular chart will list all the awards by the parent account number in the chosen unit(s). The text frame to the right of the top tabular chart lists the totals and percentages of the awards credited within the unit and the awards credited outside the unit. There is a drilldown report connected to this text frame which will open a new browser window with a list of the credit award splits outside the chosen unit. Click on a parent award account on the top, tabular chart and it will filter the below tabular chart at the bottom of the dashboard listing all child/subawards connected to the parent award account.

Available Filters:
1. Project Start Date
2. Fiscal Year
3. Division
4. Department
5. Subdepartment

**Additional Functionality**

**Bookmarks:**

**Adding a Bookmark:**

1. Similar to adding internet browsing bookmarks, first open the dashboard in which you would like to add as bookmark.
   a. To add a bookmark click the star located in the top left of the iDashboards application:

**Accessing Bookmarks:** Click on the star icon at the top left of the iDashboards application and click on the dashboard you would like to view:

**Managing Bookmarks:** Bookmarks can be managed by again navigating to the star icon and selecting “Manage Bookmarks”. From there you can reorder or delete your bookmarks:
Recently Opened Dashboards:
A user can access the ten (10) most recently accessed dashboards by clicking on the Menu button located in the bottom left-hand corner and selecting Recent Dashboards:

Dashboard Navigation
There are multiple options to navigate dashboards using the “Dashboard List Mode”, “Dashboard List Style” and “Dashboard List Position” features.

Accessing Dashboard Navigation Options:
1. Click on the “i” icon located at the top left of the application:
2. Then choose the dashboard navigation option you would like to modify:

Summary of Navigation Options:
1. Dashboard List Mode:
   a. Text (default) – “Dashboard Categories” will be viewable as text.
   b. Preview – dashboard name and dashboard thumbnails are enabled, displaying images of the dashboards.
2. **Dashboard List Style:** Unopened dashboards can be displayed in two different ways: Category & Dashboard.
   a. **Category** (default): dropdown list across the top of the application screen for each category with a list of the dashboards available in each category.
   b. **Dashboard:** each available dashboard is listed individually across the top of the application. Sort order can be set under “Category Sort Order”.

3. **Dashboard List Position:** A user can select which position the dashboard list should be displayed within the application. The available options:
   a. **Top** (default)
   b. **Left**
   c. **Right**

**Filters & Drilldowns**
Most of the dashboards will contain filters and drilldowns, which allow users to visualize a subset of the data presented on the dashboard. For example, most dashboards contain filters to present data by a specific department, sub department, account category, etc. Filters and drilldowns are useful tools to
narrow down the data represented on the dashboard to better identify opportunities and analyze metrics to measure performance.

**Dashboard Filters:**
Most dashboard filters can be viewed and changed at the top of the dashboard. Dashboard filters are often defaulted to either all items or the first item available. For example, department dashboards will most often be filtered by the first department displaying in the data filter subset. The following is an example of a dashboard with 3 filters: Department, Sub Department and Subfund Group:

1. **Editing or Changing Filters:**
   a. Start from by changing filters from left to right. Click anywhere on the filter to display filter values:
   b. Unselect the default filter value by unchecking the box.
   c. Select the filter value you would like to view.
   d. Repeat these steps for any other filters you would like to change on the dashboard.

e. Click Update to refresh the dashboard.
**TIP – When changing filters multiple times, ensure each filter is properly selected as filters have automatically been changed based upon previous selections.**

Dashboard Drilldowns:
Dashboards may contain drilldown functionality which allows users to drill into the data comprising the previous chart. For example, a drilldown may show the object code breakdown comprising the object level totals on a specific account (i.e., totals by object code for Travel). Drilldowns can also be referred to as pivots where pivots will update related charts on the dashboard with a simple click.

1. **Identifying Drillable Charts:**
   To identify charts with drilldowns simply hover your mouse over the chart. If your mouse arrow becomes a hand then the chart you’ve selected contains drilldown functionality.

2. **Drilling or Pivoting:**
   When the hand appears simply click on the value in which you would like to drill or pivot. When a chart contains a drilling function it will be replaced in the same dashboard window by another chart; with a pivot a related chart on dashboard will be changed by the value selected.

**Pivot Example:**

**Drilldown Example:** Select “University of Delaware” which drills into University agency FY 2019 details.

Drilldown chart results in the details comprising the totals from the previous chart.
3. **Drilling Back or Returning to Previous Chart:**
   To “Drill Back” to the previous chart select the back button located in the bottom left hand of the drilldown chart:

```
<table>
<thead>
<tr>
<th>Name</th>
<th>Account Nbr</th>
<th>Title</th>
<th>Dept</th>
<th>Credit Amount</th>
</tr>

**Saving Dashboards & Charts as HTML or PDF Report**

Dashboards and charts can be saved as .pdf report. To save a dashboard as a .pdf report follow these steps:

**Saving Dashboard as HTML/PDF:**

1. Right click on any chart on the dashboard.
2. Choose “More Options”: 

---
3. Under “More Options” choose “View Dashboard as Report” and choose: “PDF or HTML”

Saving Chart as PDF:
1. Right click on any chart on the dashboard.
2. Click on “View Chart” as Report:

3. A PDF Report will display. If the chart contains a large dataset it may take a minute or two for the PDF to be generated:
Print Dashboard:
A dashboard can be printed by:

1. Clicking on the “Menu” button located in the bottom left corner of the dashboard.

2. Select “Print Dashboard...” and a print window should be launched.

Viewing & Exporting Chart Data
A user can easily view the data used to develop the charts contained on the dashboard. Viewing the data allows the user to see the data in a table. Exporting the chart data will result in .csv download.

Viewing Chart Data:
1. To view chart data, right click anywhere on a chart and choose “Chart Data”: 
2. A window with a table of the chart data will appear. You can export the data from this window by clicking the “Export” button at the bottom of the window:

**Exporting Chart Data:**

1. Another method to export chart data, right click anywhere on a chart and choose “Export Data”:

2. The export will automatically occur and will appear at the bottom of your browser if you’re using “Google Chrome”:
